DETAILED ACTION

1. Claims 1-4, 6-15, 17, 19 and 21-26 are pending. Applicant cancelled claims 5, 16, 18 and 20. The previous rejection is withdrawn pursuant to Applicant's Amendment and Remarks.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4, 6-15, 17, 19 and 21-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 1-3, the phrase "for providing product location information within the store" is not clear in juxtaposition to the intended use claim language "within the store."

Claim 1, lines 18-20, the phrase "inventory information unit determines based upon the product availability information that the product" is not clear.

Claim 13, lines 1-2 & 11, the phrase "are positioned within the store" is not clear in juxtaposition to the intended use claim language "within the store."

Claim 13, lines 19-20, the phrase "inventory information unit determines based upon the product availability information that a product" is not clear.

Claim 25, lines 1-2 & 10, the phrase "are positioned within the store" is not clear in juxtaposition to the intended use claim language "within the store."

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 6-15, 17, 19 and 21-26, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Allred et al., US 5,765,142.

Allred discloses a system for product location information within a store comprising a first user interface, e.g. 17, positioned within the store in a substantially stationary manner. Allred does not specifically discuss information signals and input signals with the voice recognition. Official Notice is taken that voice activated input signals and information signals placed into a receiver for providing consumer information has been common knowledge in the art. To have provided such for Allred would have been obvious for one of ordinary skill in the art. Doing such would have substituted an well known means of communication in order to secure the information desired.
